

Alder Hey Children's Hospital Paediatric Neurosciences Departments presents

**MILD TRAUMATIC BRAIN INJURY AND CONCUSSION IN CHILDREN  
A PRACTICAL APPROACH**

**27<sup>th</sup> February 2018**

**Venue**

**Institute in the Park – Alder Hey Children's Hospital, Liverpool**

This study day will look at the challenges in treatment in children and teenagers with 'Mild traumatic brain injury' (mTBI) and 'Concussion'.

These differ in a number of ways from the problems seen in children with Severe Traumatic Brain Injury.

This study day will equip attendees with a practical approach to providing treatment of child and young person with mTBI and Concussion.

**This meeting is aimed at:**

Consultants  
Pediatricians  
Neurosurgeons  
Emergency Medicine Trainees  
General Practitioners  
Therapists and Allied Health Professionals  
Teachers  
Case Managers  
Lawyers and Sports coaches.

**RCPCH has approved this activity for CPD  
in accordance with the RCPCH CPD guidelines**

It will give take home messages for what can be put into practice the next day in aiding recovery in these children.

A Brief outline of topics to be included are:

- Treating post-concussion syndrome
- Vestibular and balance problems
- Neurosurgical aspects and brain imaging
- Evidence based protocols on return to sports and school.
