### Message from Professor Lieven Lagae, EPNS President

Dear Friends and Colleagues,

As my term in office comes to an end, I would like to thank you for all the support you have given me during this time. It has been an honour and a pleasure for me to serve as President

of the EPNS for two terms. With the enduring support and assistance of our proficient EPNS Board members, I hope I have helped the EPNS to achieve its goals and visions for the way forward. Looking back over the last 8 years, so many moments serve as reminders of the important challenges our field of paediatric neurology faces, as well as the amazing power we have as a collective force to bring about greater change for children with neurological issues. For me, perhaps the most defining of those moments are when colleagues get together for educational and research activities. The EPNS Congresses, EPNS Research Meetings, EPNS Training Courses, EPNS Fellowships are a few examples where the energy of networking can make a real difference.

It has been gratifying for me to see the EPNS become more professional and grow from strength to strength. For example, 8 years ago we had around 570 members, and today we have over 1,300 members. The EPNS has a strong tradition and is now one of the largest groups of paediatric neurologists around the world.

With 2017 marking another year of accomplishment and acclaim for Society, our EPNS Board consistently demonstrates a commitment and dedication to the success and advancement of Paediatric Neurology in Europe and the rest of the world. Soon we will be sharing our EPNS Annual Report for 2017 and I invite you to read this report which will give you a clearer idea of the Society's many achievements, the core scientific, research and educational mission, together with providing a reminder of the strong bonds and distinction that characterise the EPNS community. The new board for 2018 – 2022 will be meeting in January 2018 in Leuven. I am delighted to still be part of the board and I am excited to work with our newly elected executive committee team and president. There will be many plans for the future, and I hope to help begin with the implementation of a new strategic action plan.

I end my term as President of the EPNS with gratitude for all those who helped to make progress possible, with high hopes for the future and with renewed appreciation for this remarkable Society. I also want to sincerely thank Mrs Sue Hargreaves, our dedicated Secretary who helped us so much to keep the EPNS on the right track. Our best investment ever! As we move forward with new technological developments, political developments and environmental changes, we will confront new challenges in our field of paediatric neurology. By working together and supporting each other our Society's future is bright and together we can continue to play an important role by promoting training, clinical care and scientific research in the field of Paediatric Neurology.

Together with my colleagues on the EPNS Board, I wish you a very happy, healthy and prosperous New Year!

Best wishes, Lieven

### **EPNS Neurokids App and corresponding Workbook – *an innovative answer to the clinical challenges in child neurology!***

The latest exciting EPNS project! With the basic idea of Mind Maps, the classic textbook has been further developed to provide faster and more targeted information – in English, designed for daily professional practice, bundling the broad clinical spectrum. The App in particular is ideal for daily work and can be used on iOS 10 and Android devices. The Neurokids Workbook and App are now available as a package to all **fully paid up members**

of the EPNS at the substantially discounted price of 20 Euros plus 6 Euros postage and packaging, i.e. a **total cost of 26 Euros**.

The package can be ordered and paid for by logging into the EPNS website <http://www.epns.info/> and selecting 'Subscriptions', 'Make new payment', '*Neurokids Workbook and App 26 Euros*', 'add to cart', 'checkout via Credit Card' and follow the payment instructions. Please do not hesitate to email [info@epns.info](mailto:info@epns.info) if you have any questions.

### **1st National Congress on Current Issues of Perinatal Neurology in Kiev 2017** *read all about it!*

The EPNS actively supported this event by delegating three speakers to the 1st National Congress on Current Issues of Perinatal Neurology in Ukraine on 23-24 November 2017. ### **EPNS Training Courses 2018: Alicante, Spain** *Save the date!*

<http://www.epns.info/epns-training-course-2018-alicante/>

The EPNS has been organising training courses in paediatric neurology since 2003 specifically aiming at trainees but also at qualified paediatric neurologists who want to refresh their knowledge on certain topics. The aim is to cover most main topics in the syllabus over a three-year cycle and to promote contact between individuals in the speciality in different parts of Europe. The course has a highly interactive character and participants are encouraged to bring (difficult) cases to discuss. The number of participants is limited and applicants who wish to attend both courses will be given priority over those who wish to attend one of the two courses. The cycle of training courses 2015-2017 took place in Budapest, Hungary. We are excited to announce that the next cycle of training courses 2018-2020 will take place in beautiful Alicante, Spain.

**Program Director:** Professor Francisco Carratala, Spain

**The first training courses will be held in Alicante: 8 – 11 May 2018.**

**Topics:**

- 8 and 9 May 2018: Immune mediated diseases and infections
- 10 and 11 May 2018: Acute Neurology

More information to follow.
