

**Program Ataxia Group Block 1 13:30 – 16:30**

**Genetic analysis and congenital ataxia**

13:30-13:45 The diagnosis and counselling of fetal cerebellar anomalies (Tally Sagie)

13:45-14:00 Clinical and genetic analysis in congenital ataxia (Alfons Macaya)

**Non progressive ataxia, databases**

14:00-14:15 Non-progressive Congenital Ataxia in Childhood - a cohort study from a tertiary care hospital (Noëmi Hausheer)

14:15-14:30 Non-progressive ataxias - the Italian network and database (Sara Nuevo)

**Degenerative disorders**

14:30-14:45 Genetic and neuroimaging research in cerebellum degenerative disorders (Sergio Aguilera-Albesa)

14:45-15:00 Ataxia- teleangiectasia: Turkish Cohort (Nesibe Gevher Eroglu Ertugrul)

**Break**

15:00-15:15

**Fossa Posterior**

15:15-15:30 Children with fossa posterior tumors (Ram Kumar)

15:30-15:45 The Posterior Fossa Society Meeting: (Corien Catsman-Berrevoets)

**Spastic paraplegia & Ataxia, treatment**

15:45-16:00 Spastic paraplegia and Ataxia (Dina Amron)

16:00-16:15 The Effect of a Home Training Program with the "Salute Just Walk" A Clinical Trial (Yosha-Orpaz)

**Algorithm**

16:15-16:30 EOA algorithm by CACG-EPNS (Rick Brandsma)

16:30 Conclusion
