

INTERESTED IN PEDIATRIC STROKE? IPSO/IPSS MEETING

Friday September 20th, 2019

Highlights

- IPSS expansion to non-profit organization
- IPSO was founded in February 2019
- Emphasis on international collaboration, education and advocacy efforts
- Welcoming new members!

Please join us!

The International Pediatric Stroke Organization (IPSO) is a non-profit organization that developed out of our original collaborative network, the International Pediatric Stroke Study (IPSS). Together, our mission is to improve the lives of children across the globe with stroke or at risk for stroke through research, education, and advocacy.

Meeting Details:

Reception: 12:30

Meeting: 13:00 - 14:00

Room MC 3.4

We envision a world in which all children with stroke benefit from the most recent advances in scientific knowledge and technology.

Please join us to learn more about IPSO and IPSS!

Q: Who are our members?

A: International leaders and health professionals from multiple disciplines around the world who have an interest in pediatric stroke and cerebrovascular diseases.

Q: What are the benefits to joining IPSO?

A: Opportunities for professional development, networking, and leadership; mentorship and career guidance for early members/students; Ability to join the IPSS - enroll patients in the international registry database and help design new hypothesis-driven multicenter research studies, and have the opportunity to be selected for funded multicenter studies and trials!

Q: How do I get involved?

A: We offer 4 types of membership within IPSO (Professionals/ Early Career/ Trainee/ Affiliates). We are currently seeking Founding Members to help ratify the charter and set the priorities of the organization. **Please visit our website to learn more!**

Our research arm, the IPSS welcomes new members on a rolling basis!
