

**In response to the COVID-19 (Novel Coronavirus) situation, the European Paediatric Neurology Society (EPNS) would like to issue the following statement:**

The EPNS places a high priority on the safety and well-being of all our Working Group Chairs and participants attending our Research Meetings. We are monitoring the covid19 situation closely. Presently there are no recommendations against travelling to Stockholm, Sweden. Please continue to **monitor guidance from your own government and employer in relation to travel and conference attendance**. If the situation changes, there is a risk for later cancellation. **We recommend you take out appropriate insurance**. The WHO has also put together some helpful advice for the public to spread awareness and educate on some general preventative measures. Please follow the link below to learn more: [WHO Advice for public](#) It is our hope that the novel coronavirus will be contained as soon as possible and will not interfere with the success of the EPNS Research Meeting. If you have further questions, please email [info@epns.info](mailto:info@epns.info)
